

DECISION QUALITY WORKSHEET

TREATMENTS FOR HIP OSTEOARTHRITIS

Instructions

This survey has questions about what it was like for you to make decisions about treating your hip osteoarthritis.

Please check the box to answer each item.

Your answers will tell us two important things:

1. What matters most to you?
2. How well did we do our job of giving you information?

Thank you!

Section 1: What Matters Most to You

1.1. Which treatment did you want to have to treat your hip osteoarthritis?

- Hip replacement surgery
- Non-surgical treatment options
- I am not sure

Section 2: Facts About Hip Osteoarthritis

This set of questions asks about some facts doctors think are important for patients to know about hip osteoarthritis. The correct answer to each question is based on medical research. Please do your best to answer each question.

2.1. Which treatment is most likely to provide relief from hip pain caused by osteoarthritis?

- Surgery
- Non-surgical treatments
- Both are about the same

2.2. If 100 people have hip replacement surgery, about how many will need to have the same hip replaced again in less than 20 years?

- More than half
- About half
- Less than half

2.3. If 100 people have hip replacement surgery, about how many will have less hip pain after the surgery?

- 30
- 50
- 70
- 90

2.4. Serious complications happen after hip replacement surgery including life-threatening blood clots, infections, heart attacks, and even death.

If 100 people have hip replacement surgery, about how many will have a serious complication within 3 months after surgery?

- 4
- 10
- 14
- 20

2.5. After hip replacement surgery, about how many months does it take most people to get back to doing their usual activities?

- Less than 2 months
- 2 to 6 months
- 7 to 12 months
- More than 12 months

**The End.
Thank you.**
